Body Cross-sectional Shape:

L-shape

Overall Length:

16.500 inches

Cross-sectional Height:

0.312 inches

Cross-sectional Width:

1.180 inches

End Application:

Monitor control

Mounting Configuration:

6 holes 6-32unc x 0.50 in. Deep on thkness surface and 6 unthrded holes through narrowest part of l shape 3.2 in. Apart, first one centered 0.25 in. From end

Construction:

Solid

Material:

Aluminum alloy 6063

Material Specification:

Qq-a-200/9, alloy 6063 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
