Body Cross-sectional Shape:

L-shape

Overall Length:

4.780 inches

Cross-sectional Height:

0.125 inches

Cross-sectional Width:

2.000 inches

Mounting Configuration:

Two holes evenly spaced

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, temper cold rolled, soft annealed federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
