Wall Thickness:

Between 0.187 inches and 0.375 inches

Body Cross-sectional Shape:

L-shape

Overall Length:

20.750 inches

Cross-sectional Height:

3.750 inches

Cross-sectional Width:

1.560 inches

End Application:

An/fpn-64 (v)

Construction:

Solid

Material:

Copper

Precious Material And Location:

Surface finish rhodium

Precious Material:

Rhodium

Surface Treatment:

Rhodium

Supplementary Features:

Item includes captive stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
