Body Cross-sectional Shape:

Rectangular

Overall Length:

16.850 inches

Cross-sectional Width:

7.860 inches

End Application:

1440-01-087-9844

Mounting Configuration:

Twenty tabs equally spaced at 0.700 in.; 4 mounting holes diameter 0.205; 8 mounting holes diameter 0.169

Construction:

Solid

Material:

Copper alloy

Material Specification:

Qq-c-576, comp 2 federal specification single material response

Surface Treatment:

Solder

Surface Treatment Specification:

Qq-s-571 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
