Body Cross-sectional Shape:

Irregular

Overall Length:

9.120 inches

Cross-sectional Height:

0.214 inches

Cross-sectional Width:

0.850 inches

Mounting Configuration:

Four 6-32 unc thd mtg holes

Construction:

Laminated

Special Features:

Used on s-3a aircraft

Material:

Copper

Material Specification:

Qq-c-576, 1/2h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
