Body Cross-sectional Shape:

Rectangular

Overall Length:

11.880 inches

Cross-sectional Width:

1.820 inches

End Application:

2350-01-087-1095 full tracked combat tank

Mounting Configuration:

Ten 0.375-16 unc-2b studs unevenly spaced, two 0.900 in. Lg by 0.440 in. W slots, and one 0.500-13 unc-2b stud

Construction:

Solid

Product Name:

Negative bus bar

Material:

Copper

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
