Body Cross-sectional Shape:

L-shape

Overall Length:

3.500 inches

Cross-sectional Height:

0.370 inches

Cross-sectional Width:

1.500 inches

End Application:

Close in weapon syste (ciws-phalanx)

Mounting Configuration:

Six 0.250-28 unf-2b thd holes countersunk 120 degrees evenly spaced and one 0.386 in diameter hole

Construction:

Solid

Material:

Aluminum alloy 6061

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
