Body Cross-sectional Shape:

L-shape

Overall Length:

2.120 inches

Cross-sectional Height:

0.250 inches

Cross-sectional Width:

1.000 inches

End Application:

An/tlq-17 (v) 3, countermeasures

Mounting Configuration:

Two slots, one 0.875 in. Lg by 0.406 in. W and one 0.875 in. Lg by 0.531 in. W

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, annealed federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
