Body Cross-sectional Shape:

Straight

End Application:

F-15 aircraft

Cross-sectional Diameter:

0.030 inches

Construction:

Solid

Supplementary Features:

Cut to be treated gold plate 50 micro inches min over nickel plate 200 micro inches min dim after plating

Fsc Application Data:

Radar set msip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
