Body Cross-sectional Shape:

Rectangular

Overall Length:

2.750 inches

Cross-sectional Height:

0.063 inches

Cross-sectional Width:

0.500 inches

End Application:

5840-01-020-5631 radar set

Mounting Configuration:

Two 0.203 in. Diameter holes spaced 2.19 in. C to c and one 0.170 in. Diameter hole spaced 1.38 in. From first end

Construction:

Solid

Material:

Aluminum alloy 5086

Material Specification:

Qq-a-250/7, h112 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
