Cross Sectional Shape:

Round

Termination Type:

Connector plug both ends all conductors

Usage Design:

Test leads

Conductor Form:

Stranded all conductors

Special Features:

Cable assembly connects fuel dump valve to actuator test set; cable routes test set power to valve and routes valve and switch signals to test set for verification of correct operation

Style Designator:

Internal connectors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
