Body Cross-sectional Shape:

Irregular

Overall Length:

1.420 inches

Cross-sectional Height:

0.063 inches

Cross-sectional Width:

0.700 inches

End Application:

Conector adapter an/tps-63 radar

Mounting Configuration:

One hole ea end 0.218 in.Dia

Construction:

Solid

Material:

Copper

Material Specification:

Qq-c-576, temper cold rolled, soft annealed federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
