Body Cross-sectional Shape:

Flat

Overall Length:

1.500 inches

Cross-sectional Height:

0.051 inches

Cross-sectional Width:

0.625 inches

End Application:

Aircraft, osprey v-22a, marine corps; cargo system, 463l; low altitude navigation and targeting infrared system (lantirn); aircraft, osprey v-22a, air force

Mounting Configuration:

Four 0.386 in. Diameter holes equally spaced

Construction:

Solid

Material:

Copper

Surface Treatment:

Tin

Surface Treatment Specification:

Mil-t-10727, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0

Mil-std (military Standard):

Mil-t-10727 spec.
