Body Cross-sectional Shape:

Irregular

Overall Length:

0.580 inches

Cross-sectional Height:

0.200 inches

Cross-sectional Width:

0.050 inches

End Application:

A-6 aircraft

Mounting Configuration:

Spring pressure

Construction:

Solid

Criticality Code Justification:

Feat

Special Features:

Ec-1 code

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
