Overall Length:

24.000 inches

Conductor Quantity:

6

Round Conductor Size:

34 awg all conductors

Special Features:

Hardness critical items and/or hardness critical processes for nuclear effect of emp; substitutions must be evaluated

Nuclear Hardness Critical Feature:

Hardened

Style Designator:

Internal and external angle connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
