Overall Length:

14.000 inches

End Application:

Aircraft model e-2c

Termination Type:

Connector plug 1st end first conductor

Conductor Quantity:

1

Special Features:

Components include ferrule - insul. Grip 2, cap end 2, pin contact 2, insulator 2, housing assembly 2; wire type no. 18 awg with additional polytetrafluoroethylene sheathing - 0.312 - 24unf-2b; ea hex connector measures 0.500 in.

Style Designator:

Straight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A077a0
