Overall Length:

4.132 inches

Mounting Configuration:

Two conductor layers separated by 0.0055 thick insulating layers with the same thickness insulation covering outside surfaces

Material:

Copper

Material Specification:

Qq-c-576, 1/2h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
