**Cross Sectional Shape:**

Round

**End Application:**

C-17a

**Conductor Quantity:**

4

**Special Features:**

Used to test limit switch on cargo ramp stabilizer struts. 6 ft cable terminated at one end with a connector that connects to a limit switch on the stabilizer strut door actuator, the other end has a pigtail lead that can be connected to multimeter p/n 8840 a/af or equivalent

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A077a0
