End Application:

F-16a/b common; next assembly p/n16d1730m1; effectivity type/version 6/f 1 through 30, 6/g 1 through 8

Binding Method:

Braid and sleeve and taped

Product Name:

Wiring harness-landing gear control, station 243 to main wheel well

Material:

Copper core conductor all conductors

Fsc Application Data:

Aircraft accessory equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
