End	Appl	ication:
-----	------	----------

F-16b acft; next assembly. P/n 16d1825m1; effectivity type/version 6/e 9 to13

**Binding Method:** 

Braid and sleeve and taped

**Product Name:** 

Wiring harness-jet fuel start control-station 158 to station 243

Material:

Copper core conductor all conductors

**Fsc Application Data:** 

Aircraft accessory equipment

Shelf Life:

N/a

**Unit Of Measure:** 

--

**Demilitarization:** 

No

Fiig:

A077a0
