End Application:

F-16a acft; next assembly p/n 16d43730m1; effectivity type/version 6/h 93-96

Binding Method:

Braid and sleeve and taped

Product Name:

Wiring harness-electrical/epu control station 243 to emergency generator control unit

Material:

Copper core conductor all conductors

Fsc Application Data:

Aircraft accessory equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
