**End Application:**

F-16a acft; next assembly p/n 16d43730m1; effectivity type/version 6/g 12 only, 6/h 95-96

**Binding Method:**

Braid and sleeve and taped

**Product Name:**

Wiring harness-engine/jet fuel start control, station 243 to sta. 241

**Material:**

Copper core conductor all conductors

**Fsc Application Data:**

Aircraft accessory equipment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A077a0
