**End Application:**

F-16a acft; next assembly p/n 16d41725m1; effectivity type/version 6/h 57-65

**Binding Method:**

Braid and sleeve and taped

**Product Name:**

Wiring harness-radar warning/chaff station 158 to station 243

**Material:**

Copper core conductor all conductors

**Fsc Application Data:**

Aircraft accessory equipment

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A077a0
