End Application:

F-16c aircraft block 50

Binding Method:

Braid and sleeve and taped

Product Name:

Wiring harness-avtr control panel f-16

Special Features:

Wire specs: m22759/11-20-2, m22759/11-22-5, as required contact, terminal, plug, splice

Material:

Copper core conductor all conductors

Fsc Application Data:

Aircraft accessory equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
