Overall Length:

19.000 inches

Overall Height:

3.250 inches

Overall Width:

14.500 inches

Ac Voltage Rating:

Between 120.0 volts and 208.0 volts

Mating End Quantity:

11

End Application:

Test station elec

Current Rating In Amps:

24.0

Outlet Type:

Switched and unswitched

Mounting Method:

Rack

Features Provided:

Switch and radio interference shielding and electric noise suppressor and ground fault protection and reset button and cable assembly and high inrush protection and circuit overload protection device

Body Material:

Steel

Special Features:

Power cable is 10awg, 5 wire grounding 15' lg; power plug l21-30p; emi, rfi filter 30amps; 11 outlets, 2 nema 5-20r and 1 nema l6-20r flush mtd switched outlets per phase, two unswitched nema 5-20r outlets for convenience; nomenclature power strip elec

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A501p0
