Body Cross-sectional Shape:

Rectangular

Overall Length:

Between 2.400 inches and 2.500 inches

Cross-sectional Height:

Between 0.140 inches and 0.180 inches

Cross-sectional Width:

Between 1.970 inches and 2.030 inches

End Application:

Awacs

Construction:

Solid

Product Name:

Jumper, flat conductor cable, flexible printed circuit board

Special Features:

Performance current 2 amperes, temperature rating m55.0 degrees c min 150.0deg c max, resistance maximum 65 ohms/1000feet, dielectric test voltage 1500 vac; finish solder dip leads with solder per qq-s-571 over existing finish, curved part of lead need not be covered

Material:

Copper

Supplementary Features:

Number of conductors 24

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
