Body Cross-sectional Shape:

Angular

Overall Length:

Between 55.6 millimeters and 56.0 millimeters

Cross-sectional Height:

3.2 millimeters

Cross-sectional Width:

22.0 millimeters

End Application:

Nsn: 1055-01-450-4243; (mlrs)

Mounting Configuration:

Two mounting holes; one each end

Construction:

Solid

Special Features:

Shape is offset angle

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
