Body Cross-sectional Shape:

Angular

Overall Length:

Between 138.1 millimeters and 138.5 millimeters

Cross-sectional Height:

3.2 millimeters

Cross-sectional Width:

22.0 millimeters

End Application:

NSN:-10-550-1450

Mounting Configuration:

Two mounting holes, one each end

Construction:

Solid

Special Features:

Shape is offset angle

Material:

Copper

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
