End Application:

C-141

Product Name:

Housing, electro-mechanical components

Special Features:

Part is machined from an aluminum alloy casting; after machining, a chemical conversion coating is applied per mil-c-5541, followed by a primer coating and a finish coat of black epoxy paint; it is supplied with stainless steel thread inserts already installed

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537t0
