Body Cross-sectional Shape:

Rectangular

Overall Length:

2.900 inches

Cross-sectional Height:

1.172 inches

Cross-sectional Width:

0.031 inches

End Application:

Nuclear power plants; filters

Construction:

Solid

Product Name:

Jumper

Special Features:

Used on 8tb terminal boards; nickel plated to military specs - can be unplated to customer specs

Material:

Copper alloy

Surface Treatment:

Nickel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537p0
