Ac Voltage Rating:

Between 105.0 volts and 135.0 volts

Mating End Quantity:

1

End Application:

Jet engine test instrument; cab assembly daq

Current Rating In Amps:

15.0

Features Provided:

Cable assembly and electric noise suppressor and high inrush protection

Special Features:

(inavy)surge suppressor, alt; (drawing)surge suppressor, altered(3654as828) ; cable length: 90in min, 102in max; transient suppression voltage: 330 line-neutral, 330 line ground, 400 neutral ground; noise suppression 20khz, 20db, 1mhz, 40db

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A501p0
