End Application:

Loader, model lx100-3 and lx100-5

Product Name:

Harness, engine

Branch Quantity:

14

Special Features:

Provides connections to alternator ground, b plus, excitation adapter, and excitation diode - 5 amp; secondary steering; engine air and heater relay excitation; starter motor ground and b plus; a/c clutch and a/c clutch diode - 1amp; coolant temperature - ccu; fuel shut-off solenoid and shut-off hold-in diode; air filter restriction switch - ccu; engine oil pressure sensor - ccu; all beginning at load center connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
