End Application:

Loader, model lx100-3 and lx100-5

Product Name:

Harness, transmission

Branch Quantity:

2

Special Features:

Harness provides branch connections to intermediate speed sensor and turbine output sensor; other connections include input engine speed sensor to output speed sensor, hall effect; transmission oil filter restriction switch; transmission control valve; and load center wiring harness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A077a0
