Cross Sectional Shape:

Round

End Application:

Aircraft, osprey v-22a

Leadlength:

24.000 inches

Conductor Form:

Spiral single conductor

Product Name:

Jumper assembly

Special Features:

Lightening tested; terminals are crimped; id band color: yellow; supersedes: ms25083-6

Material:

Copper core conductor single conductor

Specification Data:

81349--83413/8-h024kk government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A077a0
