**Cross Sectional Shape:**

Round

**End Application:**

Aircraft, osprey v-22a

**Leadlength:**

24.000 inches

**Conductor Form:**

Spiral single conductor

**Product Name:**

Jumper assembly

**Special Features:**

Lightening tested; terminals are crimped; id band color: yellow; supersedes: ms25083-6

**Material:**

Copper core conductor single conductor

**Specification Data:**

81349--83413/8-h024kk government specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A077a0
