Body Cross-sectional Shape:

Flat

Overall Length:

7.250 inches

Mounting Configuration:

Four .263-.280 inch holes evenly distributed with five .214-.208 inch holes between them and on each end

Construction:

Solid

Material:

Aluminum alloy 1100

Material Specification:

Qq-a-250/1, temp 0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537p0
