Furnished Items:

Connector and electrical connector cover

End Application:

2350-01-458-7318, aav, command

Cable Assemblylength:

14.500 inches

Product Name:

Wiring harness, branched, generator/engine

Branch Quantity:

1

Special Features:

Twist multiple wire bundles before attaching to connector one turn every 8 to 16 bundle diameter; seal sleeving end with potting compound, mil-m-24041, category b, type optional, color black; fill boot with sealing compound, mil-prf-8516, type a and class optional or molding and potting compound, mil-m-24041, category 1 and type optional; branch length 8.50 inches nom

Special Markings:

Mark where shown on the drawing with method 3.10.2b or 3.10.2f in character ht .12/.09

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A077a0

Mil-std (military Standard):

Mil-m-24041 spec.
