**Body Diameter:**

0.710 inches

**Product Name:**

Inductive proximity sensor

**Special Features:**

Description: tubular (nickel plated brass) x 2 wire x 0.200 in. Sensing distance x shielded x n.O. X sink (npn) or source (pnp) programmable x micro qd (dc)

**Style Designator:**

Cylindrical w/flange

**Supplementary Features:**

Voltage: 10-30 vdc

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
