Cross Sectional Shape:

Coil/cord

Overall Length:

2.0 feet

End Application:

6130-01-597-6193

Termination Type:

Connector plug both ends all conductors

Usage Design:

Power

Product Name:

Cable, output, dazy

Special Features:

This cable connects the auxiliary output port of one merlin power module to the input of a second merlin power module to run a second radio and/or charge a battery from a single power source

Width:

1.0 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A077a0
