End Application:

Test equipment electronic

Product Name:

Programmable dc electronic loads

Special Features:

8500 series can be used for testing and evaluating a variety of dc power sources, the loads can operate in cc, cv, cr or cp mode while voltage/current or resistance/power values are measured and displayed in real time.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
