Overall Length:

2.120 inches

Overall Height:

0.800 inches

Overall Width:

1.164 inches

Unthreaded Mounting Hole Diameter:

0.130 inches all mounting facilities

Distance Between Mounting Facility Centers:

0.875 inches all mounting facilities all center groupings

End Application:

P/n 7648309-1 (53711), navigation subsystem, sdv mk8 mod 1 (new build)

Mounting Facility Type And Quantity:

4 unthreaded hole all mounting facilities

Product Name:

Plastic 9 volt battery holder

Special Features:

2 solder lug brass, tin plated terminals (pos and neg); contacts, made of steel and nickel plated

Material:

Plastic

Style Designator:

Rectangular prism

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A062a0
