Lighting Fixture - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6210-01-198-7925

Overall Length:
48.000 inches
Overall Height:
3.750 inches
Overall Width:
24.000 inches
Lamp Base Type Accommodated:
Medium bipin
Illumination Directing Device Type:
External shield
Voltage Rating In Volts:
Not rated
Mounting Method:
Flange
Lamp Type Accommodated And Quantity:
4 fluorescent
Material:
Material: Plastic acrylic illumination directing device
Plastic acrylic illumination directing device
Plastic acrylic illumination directing device Shape:
Plastic acrylic illumination directing device Shape: Rectangular
Plastic acrylic illumination directing device Shape: Rectangular Shelf Life:
Plastic acrylic illumination directing device Shape: Rectangular Shelf Life: N/a
Plastic acrylic illumination directing device Shape: Rectangular Shelf Life: N/a Unit Of Measure:
Plastic acrylic illumination directing device Shape: Rectangular Shelf Life: N/a Unit Of Measure:
Plastic acrylic illumination directing device Shape: Rectangular Shelf Life: N/a Unit Of Measure: Demilitarization:
Plastic acrylic illumination directing device Shape: Rectangular Shelf Life: N/a Unit Of Measure: Demilitarization: No
