Overall Length:

48.000 inches

Overall Height:

6.000 inches

Overall Width:

12.000 inches

Lamp Base Type Accommodated:

Medium bipin

Illumination Directing Device Type:

Louver

Voltage Rating In Volts:

120.0 ac

Mounting Method:

Recessed

Lamp Type Accommodated And Quantity:

1 fluorescent

Special Features:

Used w/energy saving ballast; 3 in. Dp semi-specular silver parabolic louver w/9 reflector cells

Material:

Steel bodyaluminum illumination directing device

Surface Treatment:

Enamel bodyanodize illumination directing device

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
