**Overall Length:**

48.000 inches

**Overall Height:**

4.500 inches

**Overall Width:**

24.000 inches

**Lamp Base Type Accommodated:**

Medium bipin

**Illumination Directing Device Type:**

Louver

**Voltage Rating In Volts:**

120.0 ac

**Mounting Method:**

Ceiling

**Lamp Type Accommodated And Quantity:**

4 fluorescent

**Special Features:**

Used w/energy saving ballast utilizing total harmonic distortion of 15 pct or less; high power factor; 78 cell parabolic louver c/o 6 rows of 13 cells

**Material:**

Aluminum bodyaluminum illumination directing device

**Surface Treatment:**

Any acceptable bodyanodize illumination directing device

**Shape:**

Rectangular

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A06300
