Overall Length:

48.000 inches

Overall Height:

5.250 inches

Overall Width:

24.000 inches

Lamp Base Type Accommodated:

Medium bipin

Illumination Directing Device Type:

Louver

Voltage Rating In Volts:

120.0 ac

Mounting Method:

Ceiling

Lamp Type Accommodated And Quantity:

4 fluorescent

Special Features:

Used w/energy saving ballast utilizing total harmonic distortion of 15 pct or less; high power factor; 32 cell parabolic louver c/o 4 rows of 8 cells

Material:

Steel bodyaluminum illumination directing device

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06300
