**Usage Design:**

Indoor

**Operating Function And Method:**

Actuation light intensity

**Voltage In Volts And Current Type:**

120.0 dc

**Special Features:**

Energy efficient; can accommodate 277 volts; has 2 switches, 2 circuits; occupancy sensor, up to 1000 square foot coverage; has 1000/1800 watt switching capacity on each circuit (2 wires) 180 degrees coverage

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07600
