Usage Design:

Indoor

Operating Function And Method:

Actuation light intensity

Voltage In Volts And Current Type:

120.0 dc

Special Features:

Energy efficient; can accommodate 277 volts; has 2 switches, 2 circuits; occupancy sensor, up to 1000 square foot coverage; has 1000/1800 watt switching capacity on each circuit (2 wires) 180 degrees coverage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07600
