Electric Light Control - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6210-01-361-8112

Usage Design:
Indoor
Operating Function And Method:
Actuation light intensity
Voltage In Volts And Current Type:
120.0 dc
Special Features:
lenergy efficient; can accommodate 277 volts; has 2 switches, 2 circuits; occupancy sensor, up to 1000 square foot coverage; has
1000/1800 watt switching capacity on each circuit (2 wires)180 degrees coverage
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A07600
