**Usage Design:**

Indoor

**Operating Function And Method:**

Actuation light intensity

**Voltage In Volts And Current Type:**

120.0 dc

**Special Features:**

Energy efficient; can accommodate 277 volts; has 2 switches, 2 circuits, occupancy sensor; up to 4000 square foot coverage; 2000/4000 watt switching capacity on each circuit (2 wires)180 degrees coverage; can be mounted in either a double or triple gang wall box or plaster ring

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A07600
