Usage Design:

Indoor

Operating Function And Method:

Actuation light intensity

Voltage In Volts And Current Type:

120.0 dc

Special Features:

Energy efficient; can accommodate 277 volts; has 2 switches, 2 circuits, occupancy sensor; up to 4000 square foot coverage; 2000/4000 watt switching capacity on each circuit (2 wires)180 degrees coverage; can be mounted in either a double or triple gang wall box or plaster ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07600
